

# OLUWAFEMI OPEOLUWA

## FRONTEND WEB DEVELOPER

### ABOUT ME

I create engaging websites with React JS that work well on all devices. I build user-friendly interfaces with smooth interactions and secure login systems. I'm seeking new opportunities and mentorship connections!

<https://github.com/Faarmera/Farmera-Frontend.git>

- My team and I created a simple solution for marketing farm produce.
- I collaborated with six other individuals using Git/GitHub.
- I worked on the sign-in page using React JS.
- I developed an appealing sign-in page structure using HTML.
- I designed using styled-component CSS.
- I used Axios for API and Backend connection.
